

KIRTI TYAGI

Frontend Developer

Gwalior, Madhya Pradesh, India | kirtityagi75661@gmail.com | [LinkedIn](#) | [GitHub](#)

SUMMARY

Frontend Developer who enjoys building websites and web apps using React.js, JavaScript, and CSS. Comfortable working with APIs, handling app data, and making sure the user interface looks clean and works smoothly. Currently studying B.Tech in Computer Science with a good academic record.

TECHNICAL SKILLS

- Frontend Technologies: HTML5, CSS3, JavaScript (ES6+), React.js, Bootstrap
- Backend & Databases: Node.js, Express.js, SQL, MongoDB (Basic Knowledge)
- Tools & Platforms: Git, GitHub

PROJECTS

Smart AI Chatbot *(React.js, Gemini/OpenAI API, GitHub)*

- Built a chatbot using React.js where users can chat and get instant replies.
- Added a feature where users can upload an image and the chatbot describes what's in it.
- Handled real-time chat and image data smoothly without any lag or bugs.

Weather Application *(React.js, Weather API, CSS3)*

- Built a weather app that shows live weather using the user's current location.
- Displayed key details like temperature, humidity, and "feels like" weather.
- Added error handling so the app still works properly if location access is denied.

Personal Portfolio Website *(HTML5, CSS3, JavaScript)*

- Designed and launched my own responsive portfolio website to showcase my projects.
- Used CSS Grid and Flexbox with JavaScript to make the navigation smooth and easy to use.
